

DON'T **LOSE SIGHT** OF YOUR **SKIP BINS**

Keep an eye on the whereabouts of your skip bins and better manage their delivery with **ROMTECK.**

www.Romteck.com

REMEMBERING THE EXACT LOCATIONS OF YOUR SKIP BINS CAN BE TRICKY

IF YOU'RE NOT CAREFUL, YOU COULD LOSE THOUSANDS OF DOLLARS ON MISPLACED ASSETS.

With **Romteck's** location management system, you get a record of the last places your skip bins were delivered and you can also track their movement during transit. Details are automatically stored – you'll never worry about manually recording their whereabouts again.

HOW IT WORKS

Attach our Romteck tracking unit to your truck

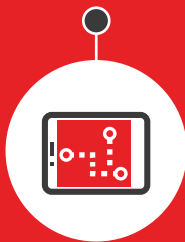

Attach our Romteck RFID tag for your skip bin.

Once installed, you'll be able to track the movements of your trucks in real-time via Google Maps. You'll also have records of the drop off sites of your skip bins, accessible through a mobile-friendly, online portal – so that there's no confusion when you're organising pickups.
